HAIR & MAKEUP PREP GUIDELINES

To ensure the best possible results on show day, all athletes must follow the preparation guidelines below. These steps allow our team to deliver professional, stage-ready results efficiently and consistently.

MAKEUP PREPARATION

Please arrive with a clean, makeup-free face

We do not spray tan the face (unless athletes are doing their own makeup)

Our professional artists will match your makeup to your competition tan

Gentle exfoliation the week prior to your show is recommended (nothing abrasive)

Please Avoid:

Chemical peels

Harsh facial treatments

Facial waxing

These should be avoided for at least two weeks prior to your show.

Makeup application typically takes 45–60 minutes, depending on the look requested.

If you have inspiration photos, please bring images that accurately represent the look you want.

Lashes are provided by Bombshell Productions.

HAIR & MAKEUP PREP GUIDELINES

HAIR PREPARATION (DRY STYLING ONLY)

Bombshell Productions offers professional dry styling only for stage hair.

We Offer:

- Curly styles
- Wavy styles
- Straight styles

Please Arrive With:

- Clean, dry hair
- Hair that is freshly shampooed and product-free
- Hair washed and dried the day before generally yields the best results

Please Avoid:

- Applying intense heat (curling irons or straighteners) on show day before your appointment
- Heavy styling products prior to arrival
- Tight ponytails or hair elastics

If you need to secure your hair prior to your appointment:

- instead use a claw clip or duckbill clip
- Clip at the base of the neck, not the crown

A small amount of dry shampoo at the roots is recommended if you tend to get oily quickly.

HAIR & MAKEUP PREP GUIDELINES

RECOMMENDED PEAK WEEK HAIR PREP (FOR ATHLETES BOOKING HAIR STYLING)

To achieve the best results with dry stage styling, we strongly recommend the following peak week hair preparation:

During Peak Week:

- Begin using a volumizing shampoo and conditioner
- Apply conditioner only to the ends of your hair
- (Avoid the roots to prevent hair from becoming flat)

Final Hair Wash:

- Your final hair wash should be on Thursday
- This allows the hair to retain natural grip while still feeling clean

Blow-Dry Technique (Thursday Wash):

- Apply a volumizing mousse to damp hair
- Flip your head upside down and blow-dry to build lift at the roots
- Avoid smoothing the hair flat while drying

Maintaining Hair Until Show Morning:

- After your Thursday wash and blow-dry, keep your hair secured in a claw clip
- Avoid elastics, tight styles, or oils
- Do not re-wash hair before show morning

Proper preparation allows our team to create full, long-lasting stage styles without unnecessary rework on show day.

HAIR & MAKEUP PREP GUIDELINES

CLIP-IN HAIR EXTENSIONS

To ensure a professional result and efficient service, the following requirements apply:

Extension Requirements:

- 100% human hair only
- Extensions must be clean, washed, brushed, and fully air-dried
- Extensions must be free of heavy product buildup

If extensions are new, they must be shampooed and conditioned prior to show day. New extensions often have a waxy coating that prevents proper curling and blending.

Important Notes:

- Please notify us at the time of booking if you will be wearing extensions
- Extensions must be available for inspection no later than the athlete meeting the night before
- We reserve the right to refuse installation if extensions are synthetic, wet, or not properly prepared

These guidelines ensure timing efficiency and the highest quality result for all athletes.
